Why is it important that we fix this problem?

- It is important to fix this problem because since everything in our day to day life is a becoming/being converted to digital from a physical /analog entity.
- We provide an alert based on their recent skill set and their preference.
- It reduces the loss of time.
- We provide a chatbot to solve communication problem.
- We provide enough information in the job portal

We have come up with a solution. In order to resolve this issue:

- We provide a job notification alert from the reputed company
- Alert based on the recent skill set and their preferences
- We provide a chatbot to conversation with recruiters especially over the internet
- Daily Local and remote job Alerts.
- Detailed information about the company culture and the environment.
- We can use a job search API to find a current Job opening in the market.
